

1978 and then it also reflects a revision in the estimated cost of the first year. This is a cash fund operation, no general fund money but the original figure was a thousand plus, \$1700 approximately. The revised figure, at least, is for \$2,490 and that is what the amendment does is anticipated it at or estimated it at rather about \$2700 in revenue would be received from the bill. I should also point out that there are updated fiscal notes being typed which will be attached to the bills, but these first two or three that we will be considering, the updated figures are not yet in your bill books. So I move the amendment be adopted.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: Senator Warner, you are saying that this will be a cash funded operation after we get past this first six months? Or will this be an annual appropriation?

SENATOR WARNER: Senator Murphy, it is a totally cash operated agency. All costs will be paid out of fees. There is no general fund money at all. The \$2,490 would be the amount of the cash fund appropriation for the operation of the board the first year and it is estimated their cash receipts will be \$2,700 plus and so we will not be appropriating all the funds they anticipate raising.
